SPECIAL CASES**Tractors**

Fees for tractors used on a public road are nominal. The Free State, KwaZulu-Natal, the Eastern Cape and the Western Cape have a sliding scale whereas the remaining provinces use a much lower fixed tariff.

However, in all provinces, tractors not used on public roads qualify for special classification (see below).

Tractor-drawn trailers

Unless they qualify for special classification, because they are not used on a public road, trailers which are pulled by tractors are levied at the same scale as other trailers. Farmers, too, no longer qualify for special classification if they wish to take their tractors and trailers on the road.

Caravans

In all provinces, caravans are taxed at a nominal fixed rate. However, the definition of caravan introduced on 23 July 2004 excludes caravans not designed or adapted solely to live in. Caravans that serve as mobile banks, kiosks, kitchens, libraries, workshops and the like must pay the full tariff for trailers or apply for special classification (see below).

Special classification [Reg 21]

The following vehicles, though not exempt, are given a special classification, qualifying for a concessionary nominal licence fee (see tables on previous pages). Owners of these vehicles must apply for special classification (on form ELF1) giving reasons. Successful applicants are issued with a certificate of special classification (form ELF3) which must be submitted on licensing the vehicle.

Tractor trailers [Reg 21 (1) (a) and tractors [Reg 21 (b)]

These qualify provided they are not used on a public road except for the purpose of:

- (a) moving between the owner's premises and then only for a distance of no further than one kilometre
- (b) being delivered to the owner
- (c) being driven to or from a place of repair [Reg 21 (4)].

This also now applies to farm tractor trailers which were previously allowed to operate freely on public roads under special classification.

Vehicles reconstructed solely for use on private property [Reg 21 (1) (c)]

These may not be driven on a public road at all.

Stock cars [Reg 21 (1) (d)] and vintage cars [Reg 21 (1) e)]

Stock cars may be specially classified but may not be used on a public road. Vintage cars (over 40 years old) also qualify and may be used on a public road, but only for the purpose of taking part in organised events, etc.

Fire-fighting vehicles [Reg 21 (1) (f)]

Although these qualify, ambulances do not.

Abnormal vehicles [Reg 21 (1) (g)]

A vehicle that does not comply with the regulations by virtue of dimensions or mass, may be granted an abnormal vehicle exemption permit by a province under section 81 of the Act. Such a vehicle qualifies for special classification, as long as it operates within the restrictions of the permit.

Mobile machinery [Reg 21 (1) (h)]

Farming equipment such as water borers, threshing machines, harvesters, harrowers, mowers, balers, scrapers, levellers, spraying machines, cranes and ploughs.

Road building and construction equipment such as excavators, bull-dozers, steam rollers, pile-drivers, and machinery used for water boring, pipe-laying and drilling. This does not include vehicles such as water trucks and articulated dump trucks. These fall under the definition of a goods vehicle and are therefore subject to the full licence fee for rigid vehicles.

Other equipment such as mobile cranes, forklift trucks and roadsweepers etc qualify provided they are not used for other purposes.

Special purpose "caravans"

Although they are not defined as "caravans", caravan-like trailers such as mobile banks, kiosks, kitchens, libraries, workshops may apply for special classification. However, they must not be designed to carry goods or any passengers.

ABNORMAL VEHICLE PERMITS

Permits that exempt vehicles and loads from complying with the regulations are granted in special cases, subject to certain conditions [Sect 81]. The following is the fee structure per province.
